

**Chamomile 5** ointment is a unique natural preparation which consists of a mixture of horse chestnut, bee wax, and aloe Vera extract and chamomile oil with different ratios. In addition, it contains other ingredients (excipients and preservatives). As indicated in the published literature horse chestnut blood vessels and reduces the appearance of the thread veins especially the superficial ones. Aloe has a potent healing and antiulcer effect. Further, chamomile plays an important role in boosting the immune system and has anti-inflammatory effect. Whereas, sesame oil helps in building new cells and also in the production of prostaglandins and has also antioxidant properties since it contains many fatty acids such as linoleic.....etc.

#### Uses of Chamomile 5 ointment:

- ❖ It strengthens the blood vessels
- ❖ It reduces the appearance of the thread veins under the skin
- ❖ It has anti-inflammatory effect
- ❖ It reduces and prevents varicose and spider veins on the legs.
- ❖ It helps in discoloring the varicose veins.

#### How to use Chamomile5 ointment:

- ❖ Put small amount of the ointment at the affected areas. Lightly massage it until the ointment disappears.
- ❖ No need to use any pressure while massaging delicate veins.
- ❖ Apply the ointment 3- 4 times daily.
- ❖ You will start to see results within only 4 weeks' time and continue to see and feel healing effects over several months. Some veins will completely vanish within 4- 8 weeks, some may take longer and therefore, we advise long- term treatment in severe cases.
- ❖ We prefer if the patient raises his legs during the rest time.
