

Les-Pain 2 gel is a unique natural gel composed of celery seeds and curcuma longa with different ratios. Celery seeds have potent anti-inflammatory and anti-rheumatic properties as indicated in the published literatures. On the other hand, curcuma also possesses anti-inflammatory activity because of its role in inhibiting the cyclooxygenase enzyme as described in the literatures. Further, it contains other ingredients and some excipients including preservatives.

Uses of Les-Pain 2 Gel: As indicated in both preclinical studies performed on experimental animals and on feedback from clinicians used it during the last 6 years on a large number of patients suffering from muscle spasms, sciatica localized rheumatic diseases such as osteoarthritis and back pain, that this gel possess the following characteristics:

- ❖ Strong analgesic property.
- ❖ Potent anti-inflammatory activity since it contains volatile oils such as d-Limonene, essential oils such as Tumerones and fixed oils such as Eugenol. In addition, it contains some proteins, coumarines, tannins and flavonoids such as Flavonoid apsinetc.

How to use Les-Pain2 gel: It should be applied 3- 4 times daily to the affected sites and rubbed gently for 2- 3 minutes in a circular way.

Contra-indications: No contra-indications from using this gel were reported even if used as adjunct with other pharmaceutical preparations.

Side- Effects: Les-Pain 2 gel is generally well-tolerated. Both preclinical and clearly showed that it has no side effects. Why Use Natural Herbal Products: - Natural - Safe - Save money and time - Help specialists and patients to optimize treatment plan.
